Subject: RE: Army Reserve documents

02/15/2002 02:02 PM

Carlyn -

Thanks. I received the documents today. Many of the Tri-County Hauling tickets identify a company named Magnum. I noticed that that company was not identified as one of the haulers in question 6 of the questionnaire. During your investigation did you discover any information regarding the relationship between Magnum and Tri-County Hauling or between either of these companies and the Army Reserves?

Also, where can we obtain background information about the sites and the contaminations of concern there?

Subject: Army Reserve documents

Good afternoon,

I will be faxing you some documents this afternoon. I checked in the original Tri-County docs and did locate the documents I was looking for concerning the Army. They were misfiled, which led to my initial confusion.

I'm sorry for the delay and for the confusion over the documents.
Please let me know if you have any questions concerning the documents or the Site in general.

We are not certain at this point to whom the Magnum refers or the nature of its relationship to Tri-County.

Some background information on the listing of the Site on the NPL can be found on EPA's web site:
<http://www.epa.gov/reg3hwmd/super/PA/lower-darby/index.htm>

The web page also contains contact information for our Regional Center for Environmental Information which maintains the official Superfund Docket in paper form. The entire Site file is also available for review and you can contact me to set that up through our FOIA office.
